

Growth Mindset

People who believe their talents can be developed (through hard work, good strategies, and input from others) have a growth mindset. They tend to achieve more than those with a more fixed mindset (those who believe their talents are innate gifts). This is because they worry less about looking clever and they put more energy into learning.

At St Philip's we encourage all our learners to have a Growth Mindset. We have linked our Growth Mindset qualities to animals. They are displayed in all our classrooms and available in cuddly form too.

Determined Dog – not giving up when things get difficult

Listening Lion – actively taking in information

Busy Bees – working hard

Unique Unicorn – looking for creative solutions

Silky spider – making links and connections in their learning
